October 2009

Dear Parent and Racer,

Here we are again, looking toward the 2009 – 2010 winter season!

- **Have you registered with USSA?** If not, go to the USSA web site and **get it done**. Each competitor must have a valid USSA number for insurance purposes and to register for races. <http://www.ussa.org/>
- **Go to the PARA web site and download the 2010 PARA application.** Have it sent in ASAP. You need to do this by 1/1/2010 to be accepted into the state finals for 2010. <http://www.paracing.org>
- **Do you have your seasons pass or lift tickets?** The special alpine team season pass rate expires on December 1st. This special rate has been extended only to those joining the alpine team, so don't delay.
- **The Team Season Training Price for 2010 is \$ 599.00– including Christmas Camp.** Please fill in the application and make checks payable to **CBH20 L.P. Credit card charges are also accepted in Guest Services or On Line.** You will need to retain a copy of the application and /or verification of payment for your records. Due to the demand placed on the program this year from new applicants, and room for a limited number of athletes; **we are placing a cutoff date of Dec. 1, 2009 for the early guarantee to a place on the team.** The club has USSA athlete insurance policy deadlines to meet, so get your team registration done as soon as possible. **No athlete can train in this program that has not paid the proper fees or does not have a lift ticket and the proper release forms signed.** A team meeting is being planned for November 22nd, and more information will follow. Check the CB and CST websites.
- **We are also asking for a racer support fee / donation to the PASEF.** This tax-deductible donation later in the fall and more is used to support club expenses at camps, races and also covers our club athlete insurance. Keep in mind the PASAF is the parent club of the program. Through your donations to the club we support coaches expenses, insurance, and assorted race supplies (slalom training poles, race computers, radios, drills, etc). We accept all individual and corporate donations. More information will come from the club will be forthcoming. Have a great early fall,

Think winter,
Gus
